

REMARKS

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Claims 1 through 8 are part of the original International PCT application PCT/EP2004/011649 and have been determined by the International Bureau as having novelty and inventiveness. Applicant has amended claims 1 to 8 to remove any multiple dependencies of the claims and to eliminate any informality to present the claims in proper form and language. Applicant asserts that these amendments are cosmetic in nature and that no claims have been narrowed to trigger prosecution history estoppel.

In addition, applicant has amended the specification to present it with proper headings and to delete a reference to a particular claim number.

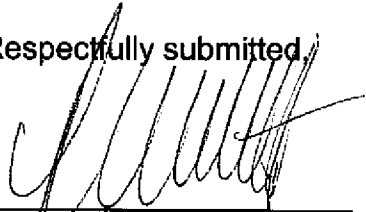

Moreover, applicant has amended Figs. 1 to 3 to label the boxes. New drawing sheets, labeled "Replacement Sheet" are submitted.

A substitute specification which includes all the foregoing changes to the specification (other than the claims) is enclosed herewith.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By:
